Manual hot air electric fryer 3.5 lt 320x310x370h mm 1.5 kW

Description

The fryer uses high-speed air convection, which allows you to bake, fry, roast and grill without using oil. You can use the innovative grill for an even crispier result. The product is really compact thanks to the clever design, it does not take up too much space but still has a high capacity with a volume of 3.5 litres. This is enough to prepare four portions of fries at once. However, you can prepare all kinds of meals in the hot air fryer by frying, grilling, roasting or baking. In this way you can prepare different types of dishes: from muffins, biscuits and sandwiches to chicken, potatoes, vegetables and fish. With two knobs for time and temperature you can always find the ideal settings for your dish. The temperature can be set between 80 and 200 °C and the timer with alarm can be set for up to 30 minutes. Thanks to high-speed air convection and the innovative grill, you will achieve the crispiest results without using oil or using very little of it. So it's healthier too! The fryer has an output of 1500 watts which allows it to heat up in no time and it has a non-stick coating, so you don't have to worry about burnt crumbs or difficult cleaning. The removable basket makes the fryer even easier to clean after use. It is also equipped with an overheating protection that will keep you worry-free. You can always touch the basket safely, thanks to the cool-touch handle. Package contents: Fryer, removable basket and grill. NB: Non-professional equipment.

Dimensions

Diametro	210 mm
Dimensioni esterne	320x310x370 mm
