Table-top electric barbecue with stand 2 kW 38x22x71h cm

Description

Enjoy a classic backyard barbecue with friends and family on a beautiful summer day with the Electric Barbecue. Simply connect the tabletop barbecue to the mains and within minutes you will be ready to grill meat, fish and vegetables. All juices and excess grease are collected in the grease pan, so cleaning is done in minutes. Grill meat, fish and vegetables. The electric barbecue includes a spacious 38 x 22 cm grill on which you can cook different types of meat, fish and vegetables at the same time. The continuous temperature control makes controlling the cooking process really easy and also allows you to grill more delicate foods, such as fish. Easy to take with you on holiday. Enjoy barbecue enjoyment with ease, even away from home. The electric barbecue can be used both as a stand barbecue and as a tabletop model. It is also easy to move, thanks to the integrated handles. Thanks to its 2000 watts of power, your barbecue heats up within minutes, so you can start cooking at the right time. All you have to do is connect the tabletop grill to the power supply and start grilling even while camping. Easy to clean. The electric barbecue is very easy to take apart, the grill and grease pan are machine washable and the heating element is easy to clean. The heat-resistant body ensures that the outside of the barbecue does not get too hot, allowing it to be placed on a table. NB: Non-professional equipment.
