Pietralavica grill on gas compartment with 2 doors S/70 80x70 cm

Description

The Ristoattrezzature 2-door gas-fired oven rack is an ideal cooking tool for professional kitchens. Versatile and durable, it is capable of withstanding any work rhythm. Especially appreciated in restaurants, bistros and pubs, this grill is ideal for cooking meat, vegetables and fish of which it preserves the taste and organoleptic characteristics. Complete your kitchen in a practical and functional way and choose the 2-door gas grill that best suits the needs of your establishment.

Design and function The design of the 2-door gas grill for restaurants is technical with clean, essential lines. The external dimensions are 800x700x930mm and the weight is 94 kg. The product is mounted on a cabinet with 2 doors and is equipped with height-adjustable stainless steel feet. Its removable tray has the function of collecting residual grease, making it easy to clean. The construction is stainless steel, as required by catering standards, and has splash guards on three sides to allow for safe cooking. The professional stoneware grill is equipped with a large cooking zone regulated by a thermostat. It is powered by gas, with piezo ignition, and the power output is 12.3 kW. The gas control knob allows the flame to be adjusted and the grill to be turned off. During cooking, it is necessary to load the lava stone evenly for optimal cooking.

Cleaning and maintenance In order for the lava stone grill to function properly and to ensure high performance at all times, every part of it must be cleaned. Cleaning this professional equipment is

quick and easy. Remove any food residue from the griddle with a dustpan and then proceed with a damp cloth and mild detergent. It is a good idea to avoid using abrasive sponges so as not to risk removing the chrome or scratching the griddle. The 2-door gas grill is also equipped with a grease collection drawer underneath the griddle: removable and easy to clean. Ensure your professional kitchen is clean and hygienic in just a few steps. Why it is the right product for you Choose Ristoattrezzature's 2-door gas grill on a cabinet to complete the furnishing of your restaurant in a practical and functional way. The cabinet set-up provides a well-organised workstation with sufficient space to store utensils and ingredients. Its compact dimensions ensure a small footprint, allowing you to easily install it in your kitchen space. Safety, reliability and robustness make it a durable and hard-wearing work tool, allowing you to cut your initial cost.
